Dear Parent / Caregiver of Otumoetai College

FREE ON-SITE DENTAL CARE YEAR FROM YEAR 9 and up!

The Mobile Adolescent Dental Service offers free dental care on school premises under the Ministry of Health's Combined Dental Agreement Contract. Our service is located at the college in Terms 1&4 each year. We cater for all students from Year 9 until the day before their 18th Birthday. We also provide our service to other local Colleges including Otumoetai College.

If you have **not** enrolled your adolescent at a Dentist and would like to enroll him/her with our service please complete the attached enrolment form and return it to the School Office, or the Health & Wellness Centre or the Dental Unit.

If you enroll your child with our service, he/she will receive an annual examination, and x-rays once a year while they attend college. If any further treatment is required, a consent form will be sent home that will need to be signed by a parent or caregiver and returned to us. If your child is over 16 they are able to sign the consent form for themselves.

Please note: You are only eligible to access one provider of the free service for adolescents. If you have enrolled your child at a Dentist you are NOT able to enroll with the on-site Dental team. HOWEVER, you may change your Dentist to us, - just ask our Dental Team.

If you have any questions for our Dental team, please text (and we will ring you back) or ring us directly on 027 807 2038.

We would love to talk to you!

You can also access more information about our Mobile Adolescent service on our web site:
